A.M.A. ARCHIVES OF

GENERAL PSYCHIATRY

VOLUME 1

JULY THROUGH DECEMBER, 1959

AMERICAN MEDICAL ASSOCIATION Publication

AUTHOR AND TITLE INDEX TO VOLUME 1

In this Index in alphabetical order are the names of the authors of all articles, followed by the title of the article and the page numbers on which their articles begin. Page numbers in the Index refer to bold face (dark) numbers in the text.

For Subject Index see page [154].

A

Albert, R. S.: See Landy, D., jt. auth.

Alpert, M.: See Levine, S., jt. auth.

Altschule, M. D.: See Sulkowitch, H., jt. auth.

Eldred, S. H.; Sherman, L. J., and Giancola, J. N.: Blood glutathione and eosinophil levels and hospital adjustment scale in chronic schizophrenia: studies over periods of 4 to 8 months, 358 (O)

Apter, N. S.: Alterations of ego functions in chronic schizophrenia, 622 (D)

Aronson, H.; Silverstein, A. B., and Klee, G. D.: Influence of lysergic acid diethylamide (LSD-25) on subjective time, 469 (N)

Azima, F. J.: See Azima, H., jt. auth.

Azima, H.; Azima, F. J., and Durost, H. B.: Psychoanalytic formulations of effects of reserpine on schizophrenic organization, 662 (D)

B

Bailey, P.: See Century, B., jt. auth.

Baker, A. A.: See Thorpe, J. G., jt. auth.

Balestrieri, A., and Fontanari, D.: Acquired and crossed tolerance to mescaline, LSD-25, and BOL-148, 279 (S)

Beckett, P. G. S.: See Gottlieb, J. S., jt. auth.

Berghorst, P.: See Vander Kamp, H., jt. auth.

Berkman, V. C.: See Ullmann, L. P., jt. auth.

Blatt, S. J.: Recall and recognition vocabulary: implications for intellectual deterioration, 473 (N)

Board, C.; King, J., and Tierney, A. M.: Time perspective and intimacy: their effect on patient behavior in occupational therapy, 425 (O)

Board, F. A.: Patients' and physicians' judgments of outcome of psychotherapy in outpatient clinic: questionnaire investigation, 185 (Ag)

Bogoch, S.; Dussik, K. T., and Lever, P. G.: Clinical status and cerebrospinal fluid "total neuraminic acid": repeated observations on schizophrenic patients, 441 (O)

Borjeson, M., and Wretlind, A.: Protein metabolism in anorexia nervosa, 283 (S)

Bostian, D. W.; Smith, P. A.; Lasky, J. J.; Hover, G. L., and Ging, R. J.: Empirical observations on mental-status examination, 253 (S)

Boverman, M.: Rigidity, chronicity, schizophrenia, 235 (S)

Bowman, K. M.: Culture and mental disease, with special reference to Thailand, 593 (D)

Boyd, I.: See Fisher, S., jt. auth.

Brill, N. Q.; Crumpton, E.; Eiduson, S.; Grayson, H. M., and Hellman, L. I.: Predictive and concomitant variables related to improvement with actual and simulated ECT, 263 (S)

Brodey, W. M.: Some family operations and schizophrenia: study of 5 hospitalized families each with schizophrenic member, 379 (O)

C

Cappon, D.: Morphology and other parameters of phantasy in schizophrenias: phenomenological and statistical approach to dreams and other works of imagination as they occur in natural history of schizophrenic illness, 17 (Jl)

Century, B.; Horwitt, M. K., and Bailey, P.: Lipid factors in production of encephalomalacia in chick, 420 (O)

Chapman, A. H.: Obsessions of infanticide, 12 (Jl)

Cohen, B. D.: See Rosenbaum, G., jt. auth.

Cohen, G.; Holland, B., and Goldenberg, M.: Disappearance rates of infused epinephrine and norepinephrine from plasma: comparison of normal and schizophrenic subjects, 228 (Ag)

Colbert, E. G.; Koegler, R. R., and Markham, C. H.: Vestibular dysfunction in childhood schizophrenia, 600 (D)

Cole, C. E.; Patterson, R. M.; Craig, J. B.; Thomas, W. E.; Ristine, L. P.; Stahly, M., and Pasamanick, B.: Controlled study of efficacy of iproniazid in treatment of depression, 513 (N)

Craig, J. B.: See Cole, C. E., jt. auth.

Crumpton, E.: See Brill, N. Q., jt. auth.

Curtis, G. C.: See Sourkes, T. L., jt. auth.

D

Day, J.: See Ryckoff, I., jt. auth.

DeJong, R. N.: See Vander Kamp, H., jt. auth.

Dirks, D.: See Rousey, C. L., jt. auth.

Ditman, K. S., and Whittlesey, J. R. B.: Comparison of LSD-25 experience and delirium tremens, 47 (Jl)

Drujan, B. D.: See Sourkes, T. L., jt. auth.

Durost, H. B.: See Azima, H., jt. auth.

Dussik, K. T.: See Bogoch, S., jt. auth.

E

Efron, H. Y.; Marks, H. K., and Hall, R.: Comparison of group-centered and individual-centered activity programs, 552 (N)

Eiduson, S.: See Brill, N. Q., jt. auth.

Eldred, S. H.: See Altschule, M. D., jt. auth.
See Stone, A. A., jt. auth.

Ellis, R. M., Jr.: See Whatmore, G. B., jt. auth.

F

Fink, M.: See Kahn, R. L., jt. auth.

Fisher, S.; Boyd, I.; Walker, D., and Sheer, D.: Parents of schizophrenics, neurotics, and normals, 149 (Ag)

Fontanari, D.: See Balestrieri, A., jt. auth.

Freeman, V. J.: Dual role of psychiatric consultant in community, 561 (D)

Frohman, C. E.: See Gottlieb, J. S., jt. auth.

G

Gallagher, W. J.; Schroeppel, A. B., and Pfeiffer, C. C.: Effects of reserpine, iproniazid (Marsilid), and triiodothyronine (Trionine), and of reserpine alone: comparative study in 117 mentally ill patients of various diagnostic categories, 215 (Ag)

Gedo, J. E.: Some difficulties of psychotherapeutic practice, 3 (Jl)

Giancola, J. N.: See Altschule, M. D., jt. auth.

Ging, R. J.: See Bostian, D. W., jt. auth.

Goetzinger, C. P.: See Rousey, C. L., jt. auth.

Goldenberg, M.: See Cohen, G., jt. auth.

Gottlieb, J. S.: See Rosenbaum, G., jt. auth.
Frohman, C. E.; Beckett, P. G. S.; Tourney, G., and Senf, R.: Production of high-energy phosphate bonds in schizophrenia, 243 (S)

Grayson, H. M.: See Brill, N. Q., jt. auth.

Grinker, R. R.: A. M. A. Archives of General Psychiatry (editorial), 1 (Jl)
Anxiety as significant variable for unified theory of human behavior, 537 (N)
Transactional model for psychotherapy, 132 (Ag)

Guze, S. B.: See Winokur, G., jt. auth.

H

Hall, R.: See Efron, H. Y., jt. auth.

Handler, J. S.: Psychotherapy and medical responsibility, 464 (N)

Hanlon, T. E.; Ota, K. Y.; Livchitz, C., and Kurland, A. A.: Chlorpromazine, triflupromazine, and prochlorperazine in chronic psychosis, 223 (Ag)

Hellman, L. I.: See Brill, N. Q., jt. auth.

Hester, R.: See Jenkins, R. L., jt. auth.

Holland, B.: See Cohen, G., jt. auth.

Hollender, M. H.: Marriage and divorce, 657 (D)

Horwitt, M. K.: See Century, B., jt. auth.
See Meyer, B. J., jt. auth.

Hover, G. L.: See Bostian, D. W., jt. auth.

Hughes, F. W.: See Kopmann, E., jt. auth.

J

Jackson, D. D., and Weakland, J. H.: Schizophrenic symptoms and family interaction, 618 (D)

Jenkins, R. L.; Stauffacher, J., and Hester R.: Symptom rating scale for use with psychotic patients, 197 (Ag)

K

Kahn, R. L.; Pollack, M., and Fink, M.: Sociopsychologic aspects of psychiatric treatment in voluntary mental hospital: duration of hospitalization, discharge ratings, and diagnosis, 565 (D)

King, J.: See Board, C., jt. auth.

Klee, G. D.: See Aronson, H., jt. auth.

Knobel, M.; Wolman, M. B., and Mason, E.: Hyperkinesis and organicity in children, 310 (S)

Knopf, I. J.; Worell, J., and Wolff, H. D.: Effect of meprobamate on stimulus generalization under experimental stress, 630 (D)

Koegler, R. R.: See Colbert, E. G., jt. auth.

Kopmann, E., and Hughes, F. W.: Potentiating effect of alcohol on tranquilizers and other central depressants, 7 (Jl)

Krus, D. M.: See Wapner, S., jt. auth.

Kurland, A. A.: See Hanlon, T. E., jt. auth.

L

LaBrosse, E. H.: See Mann, J. D., jt. auth.

Landy, D., and Albert, R. S.: Waiting for hospitalization: study of persons placed on hospital waiting list and of their families, 519 (N)

Lasky, J. J.: See Bostian, D. W., jt. auth.

Leary, R. W., and Stynes, A. J.: Tranquilizer effects in social status, motivation, and learning of monkeys, 499 (N)

LeShan, L.; Marvin, S., and Lyerly, O.: Some evidence of relationship between Hodgkin's disease and intelligence, 477 (N)

Lever, P. G.: See Bogoch, S., jt. auth.

Levine, S., and Alpert, M.: Differential maturation of central nervous system as function of early experience, 403 (O)

Lieberman, M. A.; Stock, D., and Whitman, R. M.: Self-perceptual patterns among ulcer patients, 167 (Ag)

Livchitz, C.: See Hanlon, T. E., jt. auth.

Luby, E. D.: See Rosenbaum, G., jt. auth.

Lucas, J.: See Shaw, C. R., jt. auth.

Lukianowicz, N.: Hallucinations à troix, 322 (S)

Lyerly, O.: See LeShan, L., jt. auth.

M

Mann, J. D., and LaBrosse, E. H.: Urinary excretion of phenolic acids by normal and schizophrenic male patients, 547 (N)

Marchand, W. E.: Practice of surgery in neuropsychiatric hospital, 123 (Ag)

Markham, C. H.: See Colbert, E. G., jt. auth.

Marks, H. K.: See Efron, H. Y., jt. auth.

Marvin, S.: See LeShan, L., jt. auth.

Mason, E.: See Knobel, M., jt. auth.

Mauss, E. A.: See Turner, W. J., jt. auth.

Meyer, A. C.: See Meyer, B. J., jt. auth.

Meyer, B. J.; Meyer, A. C., and Horwitt, M. K.: Effect of triiodothyronine on serum copper and basal metabolism in schizophrenic patients: correlations with serum *p*-phenylenediamine oxidase, erythrocyte sedimentation, and C-reactive protein, 372 (O)

Miller, R. E.; Murphy, J. V., and Mirsky, I. A.: Relevance of facial expression and posture as cues in communication of affect between monkeys, 480 (N)

Mirsky, I. A.: See Miller, R. E., jt. auth.

Monroe, R. R.: Episodic behavioral disorders—schizophrenia or epilepsy, 205 (Ag)

Murphy, J. V.: See Miller, R. E., jt. auth.

N

Northrup, G.: Transsexualism: report of case, 332 (S)

Nymgaard, K.: Studies on sedation threshold: A. reproducibility and effect of drugs; B. sedation threshold in neurotic and psychotic depression, 530 (N)

O

Ota, K. Y.: See Hanlon, T. E., jt. auth.

P

Pasamanick, B.: See Cole, C. E., jt. auth.

Patterson, R. M.: See Cole, C. E., jt. auth.

Peck, R. E.: SHP test—aid in detection and measurement of depression, 35 (Jl)

Pfeiffer, C. C.: See Gallagher, W. J., jt. auth.

Pfeiffer, E.: See Winokur, G., jt. auth.

Pilot, M. L.: See Schiff, S. K., jt. auth.

Pollack, M.: See Kahn, R. L., jt. auth.

R

Rabinovitch, R. D.: See Shaw, C. R., jt. auth.

Rashkis, H. A.: Revisiting, 575 (D)

Rashkis, H. A., and Singer, R. D.: Psychology of schizophrenia, 406 (O)

and Wallace, A. F. C.: Reciprocal effect: how patient disturbance affects and is affected by staff attitudes, 489 (N)

Reichlin, S.: Peripheral thyroxine metabolism in patients with psychiatric and neurological diseases, 434 (O)

Rioch, D. McK.: Problems of "perception" and "communication" in mental illness, 81, (Jl)

Ristine, L. P.: See Cole, C. E., jt. auth.

Robinson, D. B.: Evaluation of certain drugs in geriatric patients: effects of chlorpromazine, reserpine, pentylenetetrazol U. S. P., and placebo on 84 female geriatric patients in state hospital, 41 (Jl)

Rosenbaum, G.; Cohen, B. D.; Luby, E. D.; Gottlieb, J. S., and Yelen, D.: Comparison of Sernyl with other drugs: simulation of schizophrenic performance with Sernyl, LSD-25, and amobarbital (Amytal) sodium: I. attention, motor function, and proprioception, 651 (D)

Ross, M.: Review of some recent treatment methods for elderly psychiatric patients, 578 (D)

Rousey, C. L.; Goetzinger, C. P., and Dirks, D.: Sound localization ability of normal, stuttering, neurotic, and hemiplegic subjects, 640 (D)

Ryckoff, I.; Day, J., and Wynne, L. C.: Maintenance of stereotyped roles in families of schizophrenics, 93 (Jl)

S

Schiff, S. K., and Pilot, M. L.: Approach to psychiatric consultation in general hospital, 349 (O)

Schroeppel, A. B.: See Gallagher, W. J., jt. auth.

Senf, R.: See Gottlieb, J. S., jt. auth.

Shaw, C. R.; Lucas, J., and Rabinovitch, R. D.: Metabolic studies in childhood schizophrenia: effects of tryptophan loading on indole excretion, 366 (O)

Sheer, D.: See Fisher, S., jt. auth.

Sherman, L. J.: See Altschule, M. D., jt. auth.

Silverstein, A. B.: See Aronson, H., jt. auth.

Singer, R. D.: See Rashkis, H. A., jt. auth.

Smith, K.: See Stern, J. A., jt. auth.

Smith, P. A.: See Bostian, D. W., jt. auth.

Sourkes, T. L.; Drujan, B. D., and Curtis, G. C.: Effect of repeated doses of insulin on excretion of pyrocatecholamines, 275 (S)

Spiegel, H.: Hypnosis and transference: theoretical formulation, 634 (D)

Stahly, M.: See Cole, C. E., jt. auth.

Stauffacher, J.: See Jenkins, R. L., jt. auth.

Stern, J. A.; Ulett, G. A., and Smith, K.: Effect of blood plasma from psychotic patients upon activity levels of white rats, 342 (S)

Stevenson, I.: Direct instigation of behavioral changes in psychotherapy, 99 (Jl)

Stock, D.: See Lieberman, M. A., jt. auth.

Stone, A. A., and Eldred, S. H.: Delusion formation during activation of chronic schizophrenic patients, 177 (Ag)

Strong, P. N., Jr.: Effects of age, education, and brain damage on learning digit symbol test, 506 (N)

Stynes, A. J.: See Leary, R. W., jt. auth.

Sulkowitch, H., and Altschule, M. D.: Urinary "epinephrines" in patients with mental and emotional disorders: apparent occurrence of adrenolutin-like substance in urines of psychotic and depressed patients, 108 (Jl)

Szasz, T. S.: Psychiatry, psychotherapy, and psychology, 455 (N)

T

Thomas, W. E.: See Cole, C. E., jt. auth.

Thorpe, J. G., and Baker, A. A.: Statistics, science, and psychiatry, 338 (S)

Tierney, A. M.: See Board, C., jt. auth.

Tourney, G.: See Gottlieb, J. S., jt. auth.

Turner, W. J., and Mauss, E. A.: Serotonin (5-hydroxytryptamine) and acetylcholine in human ventricular and spinal fluids, 646 (D)

U

Ulett, G. A.: See Stern, J. A., jt. auth.

Ullmann, L. P., and Berkman, V. C.: Efficacy of placement or neuropsychiatric patients in family care, 273 (S)

V

Vander Kamp, H.; Berghorst, J., and DeJong, R. N.: Neurophysiologic variants in schizophrenia, 250 (S)

W

Walker, D.: See Fisher, S., jt. auth.

Wallace, A. F. C.: See Rashkis, H. A., jt. auth.

Cultural determinants of response to hallucinatory experience, 58 (Jl)

Wapner, S., and Krus, D. M.: Behavioral effects of lysergic acid diethylamide (LSD-25): space localization in normal adults as measured by apparent horizon, 417 (O)

Weakland, J. H.: See Jackson, D. D., jt. auth.

Weisman, A. D.: Psychodynamic formulation of conflict, 288 (S)

Whatmore, G. B., and Ellis, R. M., Jr.: Some neurophysiologic aspects of depressed states: electromyographic study, 70 (Jl)

Whitman, R. M.: See Lieberman, M. A., jt. auth.

Whittlesey, J. R. B.: See Ditman, K. S., jt. auth.

Winokur, G.; Guze, S. B., and Pfeiffer, E.: Nocturnal orgasm in women: its relation to psychiatric illness, dreams, and developmental and sexual factors, 180 (Ag)

Wolff, H. D.: See Knopf, I. J., jt. auth.

Wolman, M. B.: See Knobel, M., jt. auth.

Worell, J.: See Knopf, I. J., jt. auth.

Wretlind, A.: See Borjeson, M., jt. auth.

Wynne, L. C.: See Ryckoff, I., jt. auth.

Y

Yelen, D.: See Rosenbaum, G., jt. auth.

SUBJECT INDEX TO VOLUME 1

The following Index is an alphabetical list of significant subjects presented in this volume, followed by page number and month of presentation; page numbers refer to the bold face (dark) numbers in the text. Books reviewed are indexed alphabetically under the heading "Books."

A

Acetylcholine
  and serotonin in human ventricular and spinal fluids [Turner & Mauss], 646 (D)
Activity programs
  group-centered and individual-centered: comparison in treatment of schizophrenic patients [Efron et al.], 552 (N)
Adenosine
  di- and triphosphate: production in schizophrenia [Gottlieb et al.], 243 (S)
Adenylic acid
  levels in schizophrenia [Gottlieb et al.], 243 (S)
Adrenal gland
  medulla: effect of repeated doses of insulin on [Sourkes et al.], 275 (S)
Affect
  communication of, between monkeys: facial expression and posture as [illegible] in [Miller et al.], 480 (N)
Age
  effects of education, brain damage, and: on learning digit symbol test [Strong], 506 (N)
  influence on SHP readings [Peck], 37 (Jl)
Alcohol
  ethyl: potentiating effect on tranquilizers and other central depressants [Kopmann & Hughes], 7 (Jl)
Alpha-chloralose
  episodic behavioral disorders activated by: epilepsy or schizophrenia [Monroe], 205 (Ag)
A.M.A. Archives of General Psychiatry
  editorial [Grinker], 1 (Jl)
  index, cumulative subject: editorial, 2 (Jl)
American Board of Psychiatry and Neurology, Inc.
  examination schedule, 115 (Jl)
Amobarbital sodium
  simulation of schizophrenic performance with Sernyl, LSD-25, and Amytal [Rosenbaum et al.], 651 (D)
Amytal: See Amobarbital sodium
Announcements, 115 (Jl)
Anorexia nervosa
  protein metabolism in [Borjeson & Wretlind], 283 (S)
Anxiety
  as significant variable for unified theory of human behavior [Grinker], 537 (N)
  reduction: effect of central depressants and alcohol on [Kopmann & Hughes], 9 (Jl)

B

Barbiturates
  effect of chlorpromazine, phenobarbital, and amobarbital on sedation threshold [Nymgaard], 539 (N)
Behavior
  activity levels: effect of blood plasma from psychotic patients on, in white rats [Stern et al.], 342 (S)
  direct instigation of change in, in psychotherapy [Stevenson], 99 (Jl)
  effects of lysergic acid diethylamide: space localization [Wapner & Krus], 417 (O)
  episodic disorders: schizophrenia or epilepsy [Monroe], 205 (Ag)
  how patient disturbance affects and is affected by staff attitudes: reciprocal effect [Rashkis & Wallace], 489 (N)
  human: anxiety as significant variable for unified theory of [Grinker], 537 (N)
  of patient in occupational therapy: effect of time perspective and intimacy [Board et al.], 425 (O)
Blood
  glutathione and eosinophil levels in chronic schizophrenia [Altschule et al.], 358 (O)
  plasma from psychotic patients: effect on activity levels of white rats [Stern et al.], 342 (S)
  serum copper in schizophrenic patients, effect of triiodothyronine on basal metabolism and [Meyer et al.], 372 (O)
BOL-148: See 2-Bromo-d-lysergic acid diethylamide
Books
  Child and Juvenile Delinquency [Karpman], 453 (O)
  College Men at War [Monks], 233 (Ag)
  Diagnostica psichiatrica: Parte speciale [Rubino], 116 (Jl)
  Economics of Mental Illness [Fein], 116 (Jl)
  Group Psychoanalysis [Wassell], 346 (S)
  Group Psychotherapy—Theory and Practice, Ed. 2 [Klapman], 347 (S)
  Insulin Treatment in Psychiatry [Rinkel & Himwich, eds.], 559 (N)
  Language and Psychology [Reiss], 118 (Jl)
  M. K. P.—Myokinetic Psychodiagnosis [Mira y Lopez], 558 (N)

Books—continued
Operators and Things: Inner Life of a Schizophrenic [O'Brien], 232 (Ag)
Personality Patterns of Psychiatrists: A Study of Methods for Selecting Residents, Vol. I [Holt & Luborsky], 452 (O)
Personality Patterns of Psychiatrists: Supplementary and Supporting Data, Vol. II [Holt & Lubrosky], 452 (O)
Psychoanalysis and Contemporary Thought [Sutherland, ed.], 556 (N)
Psychopharmaca: Bibliography of Psychopharmacology 1952-57 [Caldwell, ed.], 347 (S)
Psychopharmacology: Problems in Evaluation [Cole & Gerard, eds.], 347 (S)
Recent Progress in Psychiatry, Vol. 3 [Fleming & Walk, eds.], 557 (N)
Right-Left Discrimination and Finger Localization [Benton], 557 (N)
Social Adjustment of Children: Bristol Social Adjustment Guides [Stott & Sykes], 556 (N)
Szondi Test [Szondi et al.], 450 (O)
Teaching and Learning of Psychotherapy [Ekstein & Wallerstein], 122 (Jl)
Time Distortion in Hypnosis. Ed. 2 [Cooper & Erickson], 450 (O)
Traite de psychiatrie [Barnk], 119 (Jl)
Brain
damage: effects of age, education, and: on learning digit symbol test [Strong], 506 (N)
electroencephalography: studies on sedation threshold [Nymgaard], 530 (N)
2-Bromo-d-lysergic acid diethylamide
mescaline, lysergic acid diethylamide, and: acquired and crossed tolerance to [Balestrieri & Fontanari], 279 (S)

C

Cerebrospinal fluid
serotonin and acetylcholine in human ventricular and spinal fluids [Turner & Mauss], 646 (D)
"total neuraminic acid" in: repeated observations on schizophrenic patients [Bogoch et al.], 441 (O)
Chewing gum
influence on SHP readings [Peck], 39 (Jl)
Chlorpromazine
effect of phenobarbital, amobarbital, and, on sedation threshold [Nymgaard], 539 (N)
evaluation in geriatric patients [Robinson], 41 (Jl)
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
triflupromazine, and prochlorperazine: treatment of chronic psychosis [Hanlon et al.], 223 (Ag)
Chronicity
rigidity, schizophrenia, and [Boverman], 235 (S)
Communication
of affect between monkeys: facial expression and posture as cues in [Miller et al.], 480 (N)
perception and, in mental illness [Rioch], 81 (Jl)
Conflict
psychodynamic formulation [Weisman], 288 (S)
Consultation
dual role of psychiatric consultant in community [Freeman], 561 (D)
psychiatric, in general hospital [Schiff & Pilot], 349 (O)
Culture
determination of response to hallucinatory experience [Wallace], 58 (Jl)
and mental disease, with special reference to Thailand [Bowman], 593 (D)

D

Delirium tremens
comparison of LSD-25 experience and [Ditman & Whittlesey], 47 (Jl)
Delusions
formation during activation of chronic schizophrenic patients [Stone & Eldred], 177 (Ag)
Depression
adrenolutin-like substance in urine of patients with [Sulkowitch & Altschule], 108 (Jl)
efficiacy of iproniazid in treatment of: controlled study [Cole et al.], 513 (N)
neurophysiologic aspects: electromyographic study [Whatmore & Ellis], 70 (Jl)
neurotic and psychotic: sedation threshold in [Nymgaard], 530 (N)
SHP test as aid in detection and measurement [Peck], 35 (Jl)
Digit symbol test
learning: effects of age, education, and brain damage on [Strong], 506 (N)
Discrimination
loss: effect of central depressants and alcohol on [Kopmann & Hughes], 9 (Jl)
Divorce
marriage and [Hollender], 657 (D)
Dreams
in natural history of schizophrenic illness [Cappon], 17 (Jl)
relation of nocturnal orgasm to, in women [Winokur et al.], 180 (Ag)
Drugs
studies on sedation threshold: reproducibility and effect of [Nymgaard], 530 (N)

E

Eastern Pennsylvania Psychiatric Institute
reciprocal effect between patients and staff: use of EPPI Behavioral Disturbance Index and Patient Weekly Rating Form [Rashkis & Wallace], 489 (N)

ECT: See Electroconvulsive therapy

EDITORIALS
A. M. A. Archives of General Psychiatry [Grinker], 1 (Jl)
Cumulative subject index, 2 (Jl)

Education
effects of age, brain damage, and: on learning digit symbol test [Strong], 506 (N)

Ego functions
alterations of, in chronic schizophrenia [Apter], 622 (D)

Electroconvulsive therapy
actual and simulated: predictive and concomitant variables related to improvement [Brill et al.], 263 (S)

Electromyography
study of neurophysiologic aspects of depressed states [Whatmore & Ellis], 70 (Jl)

Encephalomalacia
lipid factors in production of, in chick [Century et al.], 420 (O)

Eosinophils
and blood glutathione levels in chronic schizophrenia [Altschule et al.], 358 (O)

Epilepsy
episodic behavioral disorders: schizophrenia or [Monroe], 205 (Ag)

Epinephrine
and norepinephrine: effect of repeated doses of insulin on excretion [Sourkes et al.], 275 (S)
and norepinephrine, infused: disappearance rates from plasma in normal and schizophrenic subjects [Cohen et al.], 228 (Ag)

EPPI Behavioral Disturbance Index: See under Eastern Pennsylvania Psychiatric Institute

F

Facial expression
and posture: as cues in communication of affect between monkeys [Miller et al.], 480 (N)

Family
interaction: schizophrenic symptoms and [Jackson & Weakland], 618 (D)
maintenance of sterotyped roles in schizophrenia [Ryckoff et al.], 93 (Jl)
operations and schizophrenia: study of 5 hospitalized families [Brodey], 379 (O)

Family—continued
waiting for hospitalization: study of persons placed on list and of their families [Landy & Albert], 519 (N)

Family Study Project
some family operations and schizophrenia: study of 5 hospitalized families [Brodey], 379 (O)

Fever
influence on SHP readings [Peck], 38 (Jl)

Fructose-1,6-diphosphate
levels in schizophrenia [Gottlieb et al.], 243 (S)

G

Geriatrics
evaluation of drugs in geriatric patients [Robinson], 41 (Jl)
psychology of aging [Ross], 578 (D)
some recent treatment methods for elderly psychiatric patients: review [Ross], 578 (D)

H

Hallucinations
cultural determinants of response to [Wallace], 58 (Jl)
"hallucinations a troix" [Lukianowicz], 322 (S)

Hearing
tests: sound localization ability of normal, stuttering, neurotic, and hemiplegic subjects [Rousey et al.], 640 (D)

Hemiplegia
sound localization ability of hemiplegic subjects [Rousey et al.], 640 (D)

Hodgkin's disease
and intelligence: relationship between [LeShan et al.], 477 (N)

Homes, Institutional
home for aged: role in treatment of elderly psychiatric patients [Ross], 583 (D)

Hospital Adjustment Scale
in chronic schizophrenia [Altschule et al.], 358 (O)

Hospitals
day: review of some recent treatment methods for elderly psychiatric patients in [Ross], 584 (D)
general: psychiatric consultation in [Schiff & Pilot], 349 (O)
mental, and group therapy: role in treatment of elderly psychiatric patients [Ross], 579 (D)
mental, voluntary: sociopsychologic aspects of psychiatric treatment in [Kahn et al.], 565 (D)

Hospitals—continued
neuropsychiatric: practice of surgery in [Marchand], 123 (Ag)
outpatient clinic: patients' and physicians' judgments of outcome of psychotherapy in [Board], 185 (Ag)
psychiatric: waiting for hospitalization: study of persons placed on list and of their families [Landy & Albert], 519 (N)
some family operations and schizophrenia: study of 5 hospitalized families each with schizophrenic member [Brodey], 379 (O)
5-Hydroxyindoleacetic acid
excretion, effects of tryptophan loading on, in childhood schizophrenia [Shaw et al.], 367 (O)
5-Hydroxytryptamine: See Serotonin
Hyperkinesis
and organicity in children [Knobel et al.], 310 (S)
Hyperponesis [Whatmore & Ellis], 75 (Jl)
Hypnosis
and transference: theoretical formulation [Spiegel], 634 (D)

I

Imagination
in natural history of schizophrenic illness [Cappon], 17 (Jl)
Indoles
excretion: effects of tryptophan loading on, in childhood schizophrenia [Shaw et al.], 366 (O)
Infanticide
obsessions of [Chapman], 12 (Jl)
Insulin
effect of repeated doses on excretion of pyrocatecholamines [Sourkes et al.], 275 (S)
Intellectual deterioration
implications for, in recall and recognition vocabulary of normal and schizophrenic subjects [Blatt], 473 (N)
Intelligence
Hodgkin's disease and: relationship between [LeShan et al.], 477 (N)
Intimacy
and time perspective: effect on patient behavior in occupational therapy [Board et al.], 425 (O)
Iproniazid
efficacy of, in treatment of depression: controlled study [Cole et al.], 513 (N)
reserpine, triiodothyronine, and: effect on patients with mental illness [Gallagher et al.], 215 (Ag)

L

Learning
digit symbol test: effects of age, education, and brain damage on [Strong], 506 (N)
Learning—continued
tranquilizer effects in social status, motivation, and, of monkeys [Leary & Stynes], 499 (N)
Lipid
factors in production of encephalomalacia in chick [Century et al.], 420 (O)
LSD-25: See Lysergic acid diethylamide
Lysergic acid diethylamide
behavioral effects of: space localization [Wapner & Krus], 417 (O)
experience: comparison with delirium tremens [Ditman & Whittlesey], 47 (Jl)
influence on subjective time [Aronson et al.], 469 (N)
mescaline, 2-bromo-d-lysergic acid diethylamide, and: acquired and crossed tolerance to [Balestrieri & Fontanari], 279 (S)
simulation of schizophrenic performance with Sernyl, amobarbital sodium, and LSD-25 [Rosenbaum et al.], 651 (D)

M

Marriage
and divorce [Hollender], 657 (D)
Marsilid: See Iproniazid
Maturation
differential, of central nervous system as function of early experience [Levine & Alpert], (O)
Mealtimes
influences on SHP readings [Peck], 39 (Jl)
Mecholyl: See Methacholine
Medical responsibility
psychotherapy and [Handler], 464 (N)
Medicine
psychotherapy and medical responsibility [Handler], 464 (N)
Mental disease: See also Neuroses, Psychoses
culture and: with special reference to Thailand [Bowman], 593 (D)
effects of reserpine, iproniazid, and triiodothyronine, and of reserpine alone on [Gallagher et al.], 215 (Ag)
elderly psychiatric patients: review of some recent treatment methods for [Ross], 578 (D)
perception and communication in patients with [Rioch], 81 (Jl)
peripheral thyroxine metabolism in patients with neurological and [Reichlin], 434 (O)
psychiatric treatment in voluntary mental hospital: sociopsychologic aspects [Kahn et al.], 565 (D)
waiting for hospitalization: study of persons placed on list and of their families [Landy & Albert], 519 (N)

Mental health
dual role of psychiatric consultant in community [Freeman], 561 (D)
Mental status
examination of: empirical observations [Bostian et al.], 253 (S)
Meprobamate
effect on stimulus generalization under experimental stress [Knopf et al.], 630 (D)
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
Mescaline
LSD-25, BOL-148, and: acquired and crossed tolerance to [Balestrieri & Fontanari], 279 (S)
Metabolism
basal, in schizophrenic patients: effect of triiodothyronine on serum copper and [Meyer et al.] 372 (O)
Methacholine
variability in responses of schizophrenic patients to [Vander Kamp et al.], 250 (S)
Metrazol: See Pentylenetetrazol U. S. P.
Motivation
tranquilizer effects in social status, learning and, of monkeys [Leary & Stynes], 499 (N)
Motor activity
in depressed states: electromyographic study [Whatmore & Ellis], 70 (Jl)

N

Nervous system
central: differential maturation of, as function of early experience [Levine & Alpert], 403 (O)
central: potentiating effect of alcohol on tranquilizers and other depressants [Kopmann & Hughes], 7 (Jl)
diseases: peripheral thyroxine metabolism in patients with psychiatric and [Reichlin], 434 (O)
Neuraminic acid
total: in cerebrospinal fluid of schizophrenic patients [Bogoch et al.], 441 (O)
Neuropsychiatric disease
efficacy of family care of patients with [Ullmann & Berkman], 273 (S)
Neuropsychiatry
hospitals for: practice of surgery in [Marchand], 123 (Ag)
Neuroses
orgasm, nocturnal, in women with [Winokur et al.], 180 (Ag)
parents of patients with [Fisher et al.], 149 (Ag)
sound localization ability of neurotic subjects [Rousey et al.], 640 (D)
Norepinephrine
and epinephrine, infused: disappearance rates from plasma in normal and schizophrenic patients [Cohen et al.], 228 (Ag)
Nystagmus
vestibular dysfunction in childhood schizophrenia [Colbert et al.], 600 (D)

O

Occupational therapy
effect of time perspective and intimacy on patient behavior in [Board et al.], 425 (O)
individual-centered and group-centered activity programs: comparison in treatment of schizophrenic patients [Efron et al.], 552 (N)
Old Age: See Geriatrics
Organicity
hyperkinesis and, in children [Knobel et al.], 310 (S)
Orgasm
nocturnal, in women: relation to psychiatric illness, dreams, and developmental and sexual factors [Winokur et al.], 180 (Ag)

P

Pentobarbital
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
Pentylenetetrazol U. S. P.
evaluation in geriatric patients [Robinson], 41 (Jl)
Perception
and communication in mental illness [Rioch], 81 (Jl)
self-percepts among ulcer patients [Lieberman et al.], 167 (Ag)
Phantasy
morphology and other parameters in schizophrenias [Cappon], 17 (Jl)
Phenaglycodol
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
Phenolic acid
urinary excretion of, by normal and schizophrenic male patients [Mann & LaBrosse], 547 (N)
1-(1-Phenylcyclohexyl) piperidine monohydrochloride
comparison of Sernyl with other drugs: simulation of schizophrenic performance [Rosenbaum et al.], 651 (D)
Phosphates
high-energy bonds: production in schizophrenia [Gottlieb et al.], 243 (S)
Posture
and facial expression: as cues in communication of affect between monkeys [Miller et al.], 480 (N)
Prochlorperazine
chlorpromazine, triflupromazine, and: treatment of chronic psychosis [Hanlon et al.], 223 (Ag)
Protein
metabolism in anorexia nervosa [Borjeson & Wretlind], 283 (S)

Psychiatric consultant
dual role of, in community [Freeman], 561 (D)
Psychiatry
consultation in general hospital: approach to [Schiff & Pilot], 349 (O)
psychotherapy, psychology, and [Szasz], 455 (N)
statistics, science, and [Thorpe & Baker], 338 (S)
terminations of treatment: reasons [Gedo], 3 (Jl)
Psychoanalysis
formulations of effects of reserpine on schizophrenic organization [Azima et al.], 662 (D)
Psychology
of schizophrenia [Rashkis & Singer], 406 (O)
psychiatry, psychotherapy, and [Szasz], 455 (N)
Psychoses: See also specific psychoses by name
adrenolutin-like substance in urine of patients with [Sulkowitch & Altschule], 108 (Jl)
chronic: chlorpromazine, triflupromazine, and prochlorperazine in [Hanlon et al.], 223 (Ag)
effect of blood plasma from patients with, on activity levels of white rats [Stern et al.], 342 (S)
orgasm, nocturnal, in women with [Winokur et al.], 180 (Ag)
symptom-rating scale for use with patients with [Jenkins et al.], 197 (Ag)
Psychosocial dynamics
dual role of psychiatric consultant in community [Freeman], 561 (D)
Psychotherapy
difficulties in practice of [Gedo], 3 (Jl)
direct instigation of behavioral changes [Stevenson], 99 (Jl)
in outpatient clinic: patients' and physicians' judgments of outcome [Board], 185 (Ag)
and medical responsibility [Handler], 464 (N)
psychiatry, psychology, and [Szasz], 455 (N)
sociopsychologic aspects of psychiatric treatment in voluntary mental hospital [Kahn et al.], 565 (D)
some recent treatment methods for elderly psychiatric patients: review [Ross], 578 (D)
transactional model for [Grinker], 132 (Ag)
Pyrocatecholamines
excretion: effect of repeated doses of insulin on [Sourkes et al.], 275 (S)

R

Race
influence on SHP readings [Peck], 37 (Jl)
Reciprocal effect
how patient disturbance affects and is affected by staff attitudes [Rashkis & Wallace], 489 (N)
Reserpine
evaluation in geriatric patients [Robinson], 41 (Jl)
iproniazid, triiodothyronine, and: effect on patients with mental illness [Gallagher et al.], 215 (Ag)
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
psychonanalytic formulations of effects of, on schizophrenic organization [Azima et al.], 662 (D)
Response
inability to respond to stimuli: effect of alcohol and tranquilizers [Kopmann & Hughes], 10 (Jl)
Revisiting
scenes of past life [Rashkis], 575 (D)
Rigidity
chronicity, schizophrenia, and [Boverman], 235 (S)

S

Saliva
secretion test: See SHP test
Schizophrenia
cerebrospinal fluid "total neuraminic acid" of patients with [Bogoch et al.], 441 (O)
childhood, metabolic studies in: effects of tryptophan loading on indole excretion [Shaw et al.], 366 (O)
childhood, vestibular dysfunction in [Colbert et al.], 600 (D)
chronic: alterations of ego functions in [Apter], 622 (D)
chronic: blood glutathione and eosinophil levels and Hospital Adjustment Scale in [Altschule et al.], 358 (O)
chronic: delusion formation during activation [Stone & Eldred], 177 (Ag)
effect of triiodothyronine on serum copper and basal metabolism in patients with [Meyer et al.], 372 (O)
episodic behavioral disorders: epilepsy or [Monroe], 205 (Ag)
group-centered and individual-centered activity programs in patients with [Efron et al.], 552 (N)
maintenance of stereotyped roles in families of patients with [Ryckoff et al.], 93 (Jl)
morphology and other parameters of phantasy [Cappon], 17 (Jl)
neurophysiologic variants in [Vander Kamp et al.], 250 (S)
infused epinephrine and norepinephrine from plasma [Cohen et al.], 228 (Ag)

Schizophrenia--continued
organization: psychoanalytic formulations of effects of reserpine on [Azima et al.], 662 (D)
parents of patients with [Fisher et al.], 149 (Ag)
patients with: disappearance rates of infused epinephrine and norepinephrine from plasma [Cohen et al.], 228 (Ag)
performance, simulation of: with Sernyl, lysergic acid diethylamide, and amobarbital sodium [Rosenbaum et al.], 651 (D)
peripheral thyroxine metabolism in patients with psychiatric and neurological diseases [Reichlin], 434 (O)
production of high-energy phosphate bonds [Gottlieb et al.], 243 (S)
psychology of [Rashkis & Singer], 406 (O)
recall and recognition vocabulary: implications for intellectual deterioration in [Blatt], 473 (N)
rigidity, chronicity, and [Boverman], 235 (S)
some family operations and: study of 5 hospitalized families each with schizophrenic member [Brodey], 379 (O)
symptoms and family interaction [Jackson & Weakland], 618 (D)
urinary excretion of phenolic acids by male patients with [Mann & LaBrosse], 547 (N)
Science
statistics, psychiatry, and [Thorpe & Baker], 338 (S)
Sedation
threshold: A. reproducibility and effect of drugs; B. in neurotic and psychotic depression [Nymgaard], 530 (N)
Sernyl: See 1-(1-Phenylcyclohexyl) piperidine monohydrochloride
Serotonin
5-hydroxytryptamine and acetylcholine in human ventricular and spinal fluids [Turner & Mauss], 646 (D)
Serum copper: See under Blood
Sex
influence on SHP readings [Peck], 36 (Jl)
relation of nocturnal orgasm in women to sexual factors [Winokur et al.], 180 (Ag)
transsexualism: report of case [Northrup], 332 (S)
SHP test
in detection and measurement of depression [Peck], 35 (Jl)
Smoking: See Tobacco
Social status
tranquilizer effects in motivation, learning and, of monkeys [Leary & Stynes], 499 (N)
Sociopsychologic factors
aspects of psychiatric treatment in voluntary mental hospital [Kahn et al.], 565 (D)
Sodium
glutamate: potentiating effect on tranquilizers [Kopmann & Hughes], 7 (Jl)
Sound
localization ability of normal, stuttering, neurotic, and hemiplegic subjects [Rousey et al.], 640 (D)
Space localization
in normal adults as measured by apparent horizon: effects of lysergic acid diethylamide [Wapner & Krus], 417 (O)
Spinal fluid
serotonin and acetylcholine in human ventricular and [Turner & Mauss], 646 (D)
Statistics
science, psychiatry, and [Thorpe & Baker], 338 (S)
Stimulation
infantile: differential maturation of central nervous system as function of early experience [Levine & Alpert], 403 (O)
Stimulus generalization
effect of meprobamate on, under experimental stress [Knopf et al.], 630 (D)
Stress
experimental: effect of meprobamate on stimulus generalization under [Knopf et al.], 630 (D)
Strongin, Hinsie, and Peck test: See SHP test
Stuttering
sound localization ability of, subjects [Rousey et al.], 640 (D)
Subjective time: See under Time
Surgery
practice in neuropsychiatric hospital [Marchand], 123 (Ag)

T

Thailand
culture and mental disease in [Bowman], 593 (D)
Thyroxine
peripheral, metabolism in patients with psychiatric and neurological diseases [Reichlin], 434 (O)
Time
perspective and intimacy: effect on patient behavior in occupational therapy [Board et al.], 425 (O)
subjective: influence of lysergic acid diethylamide [Aronson et al.] 469 (N)
Time of day
influence on SHP readings [Peck], 39 (Jl)
Tobacco
influence of smoking on SHP readings [Peck], 38 (Jl)

Tranquilizers
effects in social status, motivation, and learning of monkeys [Leary & Stynes], 499 (N)
potentiating effect of alcohol on [Kopmann & Hughes], 7 (Jl)
Transference
and countertransference: review of some recent treatment methods for elderly psychiatric patients [Ross], 589 (D)
hypnosis and: theoretical formulation [Spiegel], 634 (D)
Transvestism
male: report of case [Northrup], 332 (S)
Triflupromazine
chlorpromazine, and prochlorperazine: treatment of chronic psychosis [Hanlon et al.], 223 (Ag)
Triiodothyronine
effect on serum copper and basal metabolism in schizophrenic patients [Meyer et al.], 372 (O)
reserpine, iproniazed, and: effect on patients with mental illness [Gallagher et al.] 215 (Ag)
Trionine: See Triiodothyronine
Tryptophan
effects of loading on indole excretion: in childhood schizophrenia [Shaw et al.], 366 (O)

U

Ulcers
self-perceptual patterns among patients with [Lieberman et al.], 167 (Ag)
Urine
adrenolutin-like substance in psychotic and depressed patients [Sulkowitch & Altschule], 108 (Jl)

V

Ventricular fluid
serotonin and acetylcholine in human spinal and [Turner & Mauss], 646 (D)
Vestibular function
dysfunction in childhood schizophrenia [Colbert et al.], 600 (D)
Vocabulary
recall and recognition: implications for intellectual deterioration in normal and schizophrenic subjects [Blatt], 473 (N)

W

Weight (body)
influence on SHP readings [Peck], 38 (Jl)

A.M.A. ARCHIVES OF

GENERAL PSYCHIATRY

VOLUME 2

JANUARY THROUGH JUNE, 1960

AMERICAN MEDICAL ASSOCIATION Publication

AUTHOR AND TITLE INDEX TO VOLUME 2

In this Index in alphabetical order are the names of the authors of all articles, followed by the title of the article and the page numbers on which their articles begin. Page numbers in the Index refer to bold face (dark) numbers in the text.

For Subject Index see page [154/**724**].

A

Abramson, H. A., and Sklarofsky, B.: Lysergic acid diethylamide (LSD-25) antagonists: III. modification of syndrome by prior administration of prednisone, 89 (Ja)

Aivazian, G. H., and Griffith, J. D.: Ceruloplasmin reaction in mental disorders, 7 (Ja)

August, B.: Drugs or psychotherapeutic program for disturbed adolescent boys, 582 (My)

B

Badel, D. W.: See **Spilman, E. L.**, jt. auth.

Bailey, P.: Modern attitudes toward relationship of brain to behavior, 361 (Ap)

Banks, R.: See **Cappon, D.**, jt. auth.

Bateson, G.: Minimal requirements for theory of schizophrenia, 477 (My)

Beck, S. J.: SR-2: affect autonomy in schizophrenia, 408 (Ap)

Beckett, P. G. S.: See **Frohman, C. E.**, jt. auth.

Bennett, I. F.: See **Casey, J. F.**, jt. auth.

Bercel, N. A.: Study of influence of schizophrenic serum on behavior of spider Zilla-x-notata, 189 (F)

Berne, E.; Starrels, R. J., and Trinchero, A.: Leadership hunger in therapy group, 75 (Ja)

Bernstein, S.: See **Sapirstein, M. R.**, jt. auth.

Berthiaume, M.; Leduc, J., and D'Iorio, A.: Metabolism of *dl*-epinephrine-beta-C^{14} in plasma, 468 (Ap)

Bicknell, J. N., and Moore, R. A.: Psychological meaning of disulfiram (Antabuse) therapy: study of case of disulfiram-induced psychosis, 661 (Je)

Bird, D.: See **Woodward, K. F.**, jt. auth.

Blackman, N.: See **Weiss, J. M. A.**, jt. auth.

Bourne, H.: Main's syndrome and a nurse's reaction to it, 576 (My)

Brickman, H. R.: Diagnostic specificity: some social psychiatric considerations, 470 (Ap)

Brinitzer, W.: See **Goldenberg, H.**, jt. auth.

Brody, E. B., and Fishman, M.: Therapeutic response and length of hospitalization of psychiatrically ill veterans: social determinants, 174 (F)

Brown, D.: See **Woodward, K. F.**, jt. auth.

Bullard, D. M.: Psychotherapy of paranoid patients, 137 (F)

C

Cappon, D., and Banks, R.: Studies in perceptual distortion: opportunistic observations on sleep deprivation during talkathon, 346 (Mr)

Casey, J. F.; Bennett, I. F.; Lindley, C. J.; Hollister, L. E.; Gordon, M. H., and Springer, N. N.: Drug therapy in schizophrenia: controlled study of relative effectiveness of chlorpromazine, promazine, phenobarbital, and placebo, 210 (F)

Century, B.: See **Meyer, B. J.**, jt. auth.

Chandler, A. L., and Hartman, M. A.: Lysergic acid diethylamide (LSD-25) as facilitating agent in psychotherapy, 286 (Mr)

Christensen, J.: See **Wase, A. W.**, jt. auth.

Cooper, I. S.: See **Riklan, M.**, jt. auth.

Counts, R. M.: See **Weinreb, J.**, jt. auth.

Czajkowski, N. P.: See **Frohman, E. C.**, jt. auth.

D

Danehy, J. J.: See **Hollender, M. H.**, jt. auth.

Dencker, S. J.: Closed head injury in twins: neurologic, psychometric, and psychiatric follow-up study of consecutive cases, using co-twins as controls, 569 (My)

Diller, L.: See **Riklan, M.**, jt. auth.

Dinitz, S.: See **Lefton, M.**, jt. auth.

D'Iorio, A.: See **Berthiaume, M.**, jt. auth.

Dittmann, A. T.: See Goodrich, D. W., jt. auth.

Dohan, F. C.: See Sprince, H., jt. auth.

DuToit, C.: See Mendelson, J., jt. auth.

E

Engel, B. T.: Stimulus-response and individual-response specificity, 305 (Mr)

Engel, M.: Shifting levels of communication in treatment of adolescent character disorders, 94 (Ja)

Some parameters of psychological evaluation of children, 593 (Je)

Engelhardt, D. M.: See Hankoff, L. D., jt. auth.

F

Feinberg, I., and Mercer, M.: Studies of thought disorder in schizophrenia: I. Chapman's tests of distractibility and associative intrusion in schizophrenia and organic brain disease, 504 (My)

Fishman, M.: See Brody, E. B., jt. auth.

Fishman, V.: See Goldenberg, H., jt. auth.

Forrer, G. R.: Effect of oral activity on hallucinations, 100 (Ja)

Fraser, N.: See Vosburg, R., jt. auth.

Freedman, N.: See Hankoff, L. D., jt. auth.

Freeman, H.: See Resnick, O., jt. auth.

Friedman, M. H.: Prognostic conceptions of resident psychiatrist: the good prognosis, 337 (Mr)

Frohman, C. E.; Latham, L. K.; Beckett, P. G. S., and Gottlieb, J. S.: Evidence of plasma factor in schizophrenia, 255 (Mr)

Czajkowski, N. P.; Luby, E. D.; Gottlieb, J. S., and Senf, R.: Further evidence of plasma factor in schizophrenia, 263 (Mr)

G

Garfinkel, H.: See Stoller, R. J., jt. auth.

Geertsma, R. H., and Stoller, R. J.: Objective assessment of clinical judgment in psychiatry, 278 (Mr)

Geocaris, K.: Patient as listener: new dimension in structure of psychotherapy, 81 (Ja)

Gleser, G. C.: See Gottschalk, L. A., jt. auth.

Glickstein, M.: Temporal patterns of cardiovascular response, 12 (Ja)

Goldenberg, H.; Fishman, V.; Whittier, J., and Brinitzer, W.: Urinary aromatic excretion patterns in schizophrenia, 221 (F)

Goldstein, N.: See Parloff, M. B., jt. auth.

Goodrich, D. W., and Dittmann, A. T.: Observing interactional behavior in residential treatment, 421 (Ap)

Gordon, M. H.: See Casey, J. F., jt. auth.

Gottlieb, J. S.: See Frohman, C. E., jt. auth.

Gottschalk, L. A.; Gleser, G. C.; Springer, K. J.; Kaplan, S. M.; Shanon, J., and Ross, W. D.: Effects of perphenazine on verbal behavior patterns: contribution to problem of measuring psychologic effects of psychoactive drugs, 632 (Je)

Greengold, M. C.: To whom it may concern, 245 (Mr)

Griffith, J. D.: See Aivazian, G. H., jt. auth.

Guehl, J., Jr.: See Vosburg, R., jt. auth.

H

Haefner, D. P.: See Mason, A. S., jt. auth.

Hagopian, M.: See Resnick, O., jt. auth.

Hamilton, C. L.: Effects of LSD-25 and amphetamine on running response in rat, 104 (Ja)

Handlon, J. H.: Metatheoretical view of assumptions regarding etiology of schizophrenia: implications for research, 43 (Ja)

Hankoff, L. D.; Engelhardt, D. M., and Freedman, N.: Placebo response in schizophrenic outpatients, 33 (Ja)

Hartman, M. A.: See Chandler, A. L., jt. auth.

Herz, M.: See Korchin, S. J., jt. auth.

Hoagland, H.: See Resnick, O., jt. auth.

SUBJECT INDEX TO VOLUME 2

The following Index is an alphabetical list of significant subjects presented in this volume, followed by page number and month of presentation; page numbers refer to the bold face (dark) numbers in the text. Books reviewed are indexed alphabetically under the heading "Books."

A

Adolescence
- character disorders: shifting levels of communication in treatment of [Engel], 94 (Ja)
- disturbed adolescent boys: drugs or psychotherapeutic program for [August], 582 (My)
- impulsivity in, and its therapeutic management [Weinreb & Counts], 548 (My)
- schizophrenias: comparison of childhood, adolescent, and adult [Pollack], 652 (Je)

Adrenals
- adrenocortical functioning: differential effects of "shame" and "disintegrative" threats on [Korchin & Herz], 640 (Je)

Affect
- autonomy in schizophrenia: SR-2 [Beck], 408 (Ap)

After-contraction
- as measure of "inhibitory process" [Sapirstein et al.], 110 (Ja)

Alcoholism
- psychological meaning of disulfiram therapy: study of case of disulfiram-induced psychosis [Bicknell & Moore], 661 (Je)

Amine oxidase
- brain: effect of electroconvulsive therapy on [Spilman & Badal], 545 (My)

Amphetamine
- effects on running response in rat [Hamilton], 104 (Ja)

Anger
- suppressed, and blood pressure: experimental study [Oken], 441 (Ap)

Antabuse: See Disulfiram

Anxiety
- after-contraction as measure of "inhibitory process" in [Sapirstein et al.], 110 (Ja)
- temporal patterns of cardiovascular response in anxious or anxiety-prone subjects [Glickstein], 12 (Ja)

Aromaturia: See Urine

Associative Intrusion test
- Chapman's tests of, and distractibility: studies of thought disorder in schizophrenia [Feinberg & Mercer], 504 (My)

Atropine
- effect of ECT, with and without atropine, upon electronically analyzed EEG [Johnson et al.], 324 (Mr)

B

Basal ganglia
- chemosurgery in Parkinsonism: psychological studies on effects of [Riklan et al.], 22 (Ja)

Behavior
- disturbed adolescent boys: drugs or psychotherapeutic program for [August], 582 (My)
- imagery sequence in sensory deprivation [Vosburg et al.], 356 (Mr)
- impulsivity in adolescents and its therapeutic management [Weinreb & Counts], 548 (My)
- influence of schizophrenic serum on, of spider Zilla-x-notata [Bercel], 189 (F)
- interactional: observing, in residential treatment [Goodrich & Dittmann], 421 (Ap)
- relationship of brain to: modern attitudes toward [Bailey], 361 (Ap)
- responses and catechol amine excretion during sensory deprivation [Mendelson et al.], 147 (F)
- running response in rat: effects of LSD-25 and amphetamine on [Hamilton], 104 (Ja)
- verbal patterns: See Speech

Blood
- ceruloplasmin reaction in mental disorders [Aivazian & Griffith], 7 (Ja)
- cholesterol and tocopherol levels: effects of triiodothyronine in schizophrenics [Meyer et al.], 528 (My)
- hydrocortisone levels: differential effects of "shame" and "disintegrative" threats on adrenocortical functioning [Korchin & Herz], 640 (Je)
- plasma factor in schizophrenia: evidence of [Frohman et al.], 255 (Mr)
- plasma factor in schizophrenia: further evidence of [Frohman et al.], 263 (Mr)

Blood—continued
plasma of schizophrenics: metabolism of *dl*-epinephrine-beta-C^{14} in [Berthiaume et al.], 468 (Ap)
schizophrenic serum: influence on behavior of spider Zilla-x-notata [Bercel], 189 (F)
serum pseudocholinesterase, measurement by: choline antagonism to indolic psychotomimetic compounds [Sprince & Lichtenstein], 385 (Ap)

Blood pressure
suppressed anger and: experimental study [Oken], 441 (Ap)
systolic and diastolic: temporal patterns of cardiovascular response in anxious subjects [Glickstein], 12 (Ja)

Body
temperature and heart rate recording in freely moving rat: permanent implants [Sines], 182 (F)

Book Review Index: See Mental Health Book Review Index

BOOKS
Adolescent Aggression: Study of Influence of Child-Training Practices and Family Interrelationships [Bandura & Walters], 713 (Je)
Adolescent Rorschach Responses: Developmental trends from 10 to 16 years [Ames et al.], 124 (Ja)
Advances in Psychiatry—Recent Developments in Interpersonal Relations [Cohen, ed.], 243 (F)
Annual Survey of Psychoanalysis, 1954: Comprehensive Survey of Current Psychoanalytic Theory and Practice [Frosch & Ross, eds.], 713 (Je)
Assessment of Human Motives [Lindzey, ed.], 713 (Je)
Countertransference [Wolstein], 715 (Je)
Criminal Mind (Roche), 713 (Je)
Culture and Mental Health: Cross-Cultural Studies [Opler, ed.], 710 (Je)
Differential Treatment and Prognosis in Schizophrenia [Wirt & Simon], 121 (Ja), 358 (Mr)
Drugs and Mind [de Ropp], 713 (Je)
Emotional Forces in Family [Liebman, ed.], 715 (Je)
Essays in Individual Psychology [Adler & Deutsch, eds.], 713 (Je)
Handbook of Physiology. Section I-II, American Physiological Society. 2 vols. [Field et al., eds.], 589 (My)
Heavy Metals and Brain [Cumings], 716 (Je)
Hypnoanalysis (Wolberg), 713 (Je)
Hypnoanalysis of Anxiety Hysteria [Freytag], 712 (Je)
Language of Psychology [Mandler & Kessen], 589 (My)

BOOKS—continued
Migration et maladie mentale [Champion], 359 (Mr)
Mirrors and Masks: Search for Identity [Strauss], 589 (My)
Neuro-Psychopharmacology. Proceedings of First International Congress of Neuro-Psychopharmacology, Rome, 1958 [Bradley et al., eds.], 712 (Je)
Personality Change and Development as Measured by Projective Techniques [Harrower], 122 (Ja)
Projective Psychology [Abt & Bellak, eds.], 122 (Ja)
Psychiatry: Descriptive and Dynamic [Smith], 589 (My)
Psychoanalysis and Psychotherapy. Selected Papers of Frieda Fromm-Reichmann [Bullard, ed.], 242 (F)
Psychopathy: Comparative Analysis of Clinical Pictures [Frankenstein], 591 (My)
Reflexes to Intelligence: Reader in Clinical Psychology [Beck & Molish, eds.], 710 (Je)
Religion, Science, and Mental Health. Proceedings of First Academy Symposium, 1957 [Academy of Religion and Mental Health], 711 (Je)
Reports and Symposium. Group for Advancement of Psychiatry (GAP). Vol. III, 242 (F)
Surgery as Human Experience [Titchener & Levine], 588 (My)

Brain
amine oxidase: effect of electroconvulsive therapy on [Spilman & Badal], 545 (My)
disease, organic: Chapman's tests of distractibility and associative intrusion in schizophrenia and [Feinberg & Mercer], 504 (My)
electroencephalography: See Electroencephalography
relationship to behavior: modern attitudes toward [Bailey], 361 (Ap)
tissue, phospholipid metabolism in: stimulus deprivation and [Wase & Christensen], 171 (F)

Bromide
hallucinosis: relationship to schizophrenia [Levin], 429 (Ap)

C

Cardiovascular system
temporal patterns of response in anxious or anxiety-prone subjects [Glickstein] 12, (Ja)

Catecholamines in urine: See Urine

Ceruloplasmin: See Blood, ceruloplasmin

Chapman's tests: See Associative Intrusion test; Distractibility test

Character
disorders, adolescent: shifting levels of communication in treatment of [Engel], 94 (Ja)

Children
hyperaggressive: observing interactional behavior in residential treatment of [Goodrich & Dittmann], 421 (Ap)
mother-child interaction: young schizophrenic mothers' initial posthospital adjustment at home [Pao], 512 (My)
preschool, mentally retarded: psychiatric study of [Woodward et al.], 156 (F)
psychological evaluation: some parameters [Engel], 593 (Je)
schizophrenias: comparison of childhood adolescent, and adult [Pollack], 652 (Je)

Chlorpromazine
fetal damage due to ECT, insulin coma, reserpine, or [Sobel], 606 (Je)
therapy in schizophrenia: relative effectiveness of promazine, phenobarbital, placebo and [Casey et al.], 210 (F)

Cholesterol, in blood: See Blood

Choline
antagonism to indolic psychotomimetic compounds: measurement by pseudocholinesterase [Sprince & Litchenstein], 385 (Ap)

Cholinesterase
pseudocholinesterase, measurement by, of choline antagonism to indolic psychotomimetic compounds [Sprince & Lichtenstein], 385 (Ap)

Clinics: See also Mental health, clinic
psychopharmacological: placebo response in schizophrenic outpatients [Hankoff et al.], 33 (Ja)

College
happy student myth: psychiatric implications diagnostic survey [Selzer], 131 (F)

Communication
of values and therapeutic change [Parloff et al.], 300 (Mr)
shifting levels of, in treatment of adolescent character disorders [Engel], 94 (Ja)

CORRESPONDENCE
Psychiatry, Psychotherapy, and Psychology (Szasz); Psychotherapy and Medical Responsibility (Handler) [Jenkins], 707 (Je)

Creatinuria: See Urine

Criminal offenders
sudden murderer: comparative analysis [Weiss et al.], 669 (Je)

D

Diphenhydramine
drugs or psychotherapeutic program for disturbed adolescent boys [August], 582 (My)

Disintegrative threat: See Stress

Distractibility test
Chapman's tests of, and associative intrusion: studies of thought disorder in schizophrenia [Feinberg & Mercer], 504 (My)

Disulfiram
therapy, psychological meaning of: study of case of disulfiram-induced psychosis [Bicknell & Moore], 661 (Je)

Dreams
psychophysiology of: electromyographic study of dreaming [Wolpert], 231 (F)

Drinking
effect of oral activity on hallucinations [Forrer], 100 (Ja)

Drugs
or psychotherapeutic program for disturbed adolescent boys [August], 582 (My)
psychoactive, measuring psychologic effects of: study of effects of perphenazine on verbal behavior patterns [Gottschalk et al.], 632 (Je)

E

Eating
effect of oral activity on hallucinations [Forrer], 100 (Ja)

EDITORIALS
Mental Health Book Review Index, 701 (Je)

Electroconvulsive therapy
effect on brain amine oxidase [Spilman & Hadal], 545 (My)
fetal damage due to ECT, insulin coma, chlorpromazine, or reserpine [Sobel], 606 (Je)
immediate and delayed effects on ceruloplasmin reaction in mental disorders [Aivazian & Griffith], 7 (Ja)
with and without atropine: effect upon electronically analyzed EEG [Johnson et al.], 324 (Mr)

Electroencephalography
controlled study of fourteen- and six-per-second EEG pattern [Walter et al.], 559 (My)
effect of ECT, with and without atropine, upon electronically analyzed EEG [Johnson et al.], 324 (Mr)

Electromyography
study of dreaming: psychophysiology of dreams [Wolpert], 231 (F)

Emotional disturbance
after-contraction as measure of "inhibitory process" in states of [Sapirstein et al.], 110 (Ja)
differential effects of "shame" and "disintegrative" treats on emotional functioning [Korchin & Herz], 640 (Je)
treatment during gestation: fetal damage due to ECT, insulin coma, chlorpromazine, or reserpine [Sobel], 606 (Je)

Epinephrine
dl-epinephrine-beta-C^{14}, metabolism, in plasma of schizophrenics [Berthiaume et al.], 468 (Ap)

F

Family
of hospitalized patient: psychiatric resident and [Hollender et al.], 125 (F)

Fetus
fetal damage due to ECT, insulin coma, chlorpromazine, or reserpine [Sobel], 606 (Je)

Friendships
among psychiatric patients [Wadeson], 694 (Je)

G

Ganglia, basal: See Basal ganglia

General practitioner
to whom it may concern: academic communication between psychiatrist and [Greengold], 245 (Mr)

Genetics
problems posed by double-bind theory: in discussion of minimal requirements for theory of schizophrenia [Bateson], 477 (My)

H

Hallucinations
comparison of 2 hallucinogens, LSD and JB 318: exploratory study [Lebovits et al.], 390 (Ap)
effect of oral activity, eating or drinking, on [Forrer], 100 (Ja)

Hallucinosis
bromide: relationship to schizophrenia [Levin], 429 (Ap)

Head
injury, closed, in twins: neurologic, psychometric, and psychiatric follow-up study [Dencker], 569 (My)

Heart
rate and body temperature recording in freely moving rat: permanent implants for [Sines], 182 (F)

Heart—continued
rate: experimental study of suppressed anger, blood pressure and [Oken], 441 (Ap)
rate: temporal patterns of cardiovascular response in anxious subjects [Glickstein], 12 (Ja)

Hospitals
mental: cognitive restructuring: why research is therapy [Rashkis], 612 (Je)
mental: friendships among psychiatric patients [Wadeson], 694 (Je)
mental: organization and staff evaluation of patients [Lefton et al.], 462 (Ap)
posthospital, initial, adjustment of young schizophrenic mothers at home: mother-child interaction [Pao], 512 (My)
psychiatric resident and family of hospitalized patient [Hollender et al.], 125 (F)
Veterans Administration: characteristics of 44 known suicides previously treated in [Pokorny], 314 (Mr)
Veterans Administration: discharges from mental hospital in relation to social class and other variables [Mason et al.], 1 (Ja)
Veterans Administration: Psychiatric Evaluation Project, predicting outcome of schizophrenic episode [Walker & Kelley], 492 (My)
Veterans Administration: social determinants of therapeutic response and length of hospitalization [Brody & Fishman], 174 (F)

Hydrocortisone in plasma: See under Blood

Hypnosis
and pain [Kaplan], 567 (My)

I

Imagery
sequence in sensory deprivation [Vosburg et al.], 356 (Mr)

Impulsivity
in adolescents and its therapeutic management [Weinreb & Counts], 548 (My)

Index, Mental Health: See Mental Health Book Review Index

Indoles
choline antagonism to indolic psychotomimetic compounds [Sprince & Lichtenstein], 385 (Ap)
in urine: See Urine

Institutions
observing interactional behavior in residential treatment [Goodrich & Dittmann], 421 (Ap)

Insulin coma
fetal damage due to ECT, chlorpromazine, reserpine, or [Sobel], 606 (Je)

Intellectual functioning
etiologic significance, in comparison of childhood, adolescent, and adult schizophrenias [Pollack], 652 (Je)
psychological studies on effects of chemosurgery of basal ganglia in Parkinsonism [Riklan et al.], 22 (Ja)

Isolation
stress: stimulus deprivation and phospholipid metabolism in cerebral tissue [Wase & Christensen], 171 (F)

J

JB 318: See N-ethyl-3-piperidyl benzilate

L

Leadership
hunger in therapy group [Berne et al.], 75 (Ja)

Learning
genetics, and evolution: in discussion of minimal requirements for theory of schizophrenia [Bateson], 477 (My)

LSD-25: See Lysergic acid diethylamide

Lysergic acid diethylamide
and JB 318: comparison of 2 hallucinogens: exploratory study [Lebovits et al.], 390 (Ap)
antagonists: modification of syndrome by prior administration of prednisone [Abramson & Sklarofsky], 89 (Ja)
as facilitating agent in psychotherapy [Chandler & Hartman], 286 (Mr)
effects on running response in rat [Hamilton], 104 (Ja)

M

Main's syndrome
and nurse's reaction to it [Bourne], 576 (My)

Marriage
marital status, social class, and other variables: discharges from mental hospital in relation to [Mason et al.], 1 (Ja)

Mental deficiency
psychiatric study of mentally retarded preschool children: 4-year exploratory project [Woodward et al.], 156 (F)

Mental disorders: See also Mental deficiency; Psychoses
ceruloplasmin reaction in [Aivazian & Griffith], 7 (Ja)
closed head injury in twins: neurologic, psychometric, and psychiatric follow-up study [Dencker], 569 (My)

Mental disorders—continued
diagnostic specificity: some social psychiatric considerations [Brickman], 470 (Ap)
discharges from mental hospital (Veterans Administration) in relation to social class and other variables [Mason et al.], 1 (Ja)
friendships among psychiatric patients [Wadeson], 694 (Je)
measurement of therapeutic outcome in psychotherapy [Storrow], 142 (F)
psychiatric implications of happy college student myth: diagnostic survey [Selzer], 131 (F)
therapeutic response and length of hospitalization of psychiatrically ill veterans [Brody & Fishman], 174 (F)

Mental health
clinic, University of Michigan Health Service: psychiatric implications of happy college student myth [Selzer], 131 (F)
National Institute of Mental Health. Child Research Branch: observing interactional behavior in residential treatment [Goodrich & Dittmann], 421 (Ap)

Mental Health Book Review Index (editorial), 701 (Je)

Mental tests
psychological studies (Wechsler-Bellevue) on effects of chemosurgery of basal ganglia in Parkinsonism: intellectual functioning [Riklan et al.], 22 (Ja)

Meprobamate
drugs or psychotherapeutic program for disturbed adolescent boys [August], 582 (My)

Metabolism
basal, changes in: effects of triiodothyronine in schizophrenics [Meyer et al.], 528 (My)

Monoamine oxidase
inhibition in human subjects: in vivo test for measuring [Resnick et al.], 459 (Ap)

Mothers
young schizophrenic: initial posthospital adjustment at home: mother-child interaction [Pao], 512 (My)

Murderer
sudden: comparative analysis [Weiss et al.], 669 (Je)

Muscles
after-contraction as measure of "inhibitory process" [Sapirstein et al.], [illegible] (Ja)

N

National Institute of Mental Health: See Mental health

N-ethyl-3-piperidyl benzilate (JB 318)
and LSD: comparison of 2 hallucinogens: exploratory study [Lebovits et al.], 390 (Ap)

Nurses and nursing
Main's syndrome and nurse's reaction to it [Bourne], 576 (My)

O

Odors
peculiar, in sweat of schizophrenic patients [Smith & Sines], 184 (F)

Offenders: See Criminal offenders

Oral activity
eating or drinking: effect on hallucinations [Forrer], 100 (Ja)

Orientation
disorientation and misperception during sleep deprivation [Morris et al.], 247 (Mr)

Outpatient department: See Clinics

Oxidase
amine, brain: effect of electroconvulsive therapy on [Spilman & Badal], 545 (My)
monoamine: in vivo test for measuring, inhibition in human subjects [Resnick et al.], 459 (Ap)

P

Pain
hypnosis and [Kaplan], 567 (My)

Paranoia
paranoid state—theory and therapy [Salzman], 679 (Je)
psychotherapy of paranoid patients [Bullard], 137 (F)

Parkinsonism
effects of chemosurgery of basal ganglia in: psychological studies [Riklan et al.], 22 (Ja)

Perception
distortion: opportunistic observations on sleep deprivation during talkathon [Cappon & Banks], 346 (Mr)
misperception and disorientation during sleep deprivation [Morris et al.], 247 (Mr)
of hidden pictures by schizophrenic patients [Weckowicz], 521 (My)

Perphenazine
effects, on verbal behavior patterns [Gottschalk et al.], 632 (Je)

Personality
some determinants of clinical evaluations of different psychiatrists [Strupp & Williams], 434 (Ap)

Phenobarbital
therapy in schizophrenia: relative effectiveness of chlorpromazine, promazine, placebo, and [Casey et al.], 210 (F)

Phospholipids
metabolism in cerebral tissue: stimulus deprivation and [Wase & Christensen], 171 (F)

Pictures
hidden: perception, by schizophrenic patients [Weckowicz], 521 (My)

Placebos
chlorpromazine, promazine, phenobarbital, and: relative effectiveness in schizophrenia [Casey et al.], 210 (F)
response in schizophrenic outpatients [Hankoff et al.], 33 (Ja)

Plasma: See Blood

Prednisone
modification of model lysergic acid diethylamide psychosis by prior administration of [Abramson & Sklarofsky], 89 (Ja)

Pregnancy
emotionally disturbed women in: fetal damage due to ECT, insulin coma, chlorpromazine, or reserpine [Sobel], 606 (Je)

Preschool children: See Children

Promazine
therapy in schizophrenia: relative effectiveness of chlorpromazine, phenobarbital, placebo, and [Casey et al.], 210 (F)

Pseudocholinesterase: See Cholinesterase

Psychiatry
clinical evaluations of different psychiatrists: some determinants of [Strupp & Williams], 434 (Ap)
clinical judgment in: objective assessment of [Geertsma & Stoller], 278 (Mr)
cognitive restructuring: why research is therapy [Rashkis], 612 (Je)
psychiatric and teaching approach to study of mentally retarded preschool children: 4-year exploratory project [Woodward et al.], 156 (F)
resident, prognostic conceptions of: the good prognosis [Friedman], 337, (Mr)
resident, psychiatric, and family of hospitalized patient [Hollender et al.], 125 (F)
sex of psychiatrist: significance of [Ivey], 622 (Je)

Psychiatry—continued
social psychiatric considerations: diagnostic specificity [Brickman], 470 (Ap)
statistics, science, and [Thorpe & Baker, Sept. 1959]: comment [Levitt], 457 (Ap)
to whom it may concern: academic communication between psychiatrist and general practitioner [Greengold], 245 (Mr)

Psychoactive drugs: See Drugs

Psychology
evaluation of children: some parameters of [Engel], 593 (Je)
meaning of disulfiram therapy for alcoholism [Bicknell & Moore], 661 (Je)
measuring psychologic effects of psychoactive drugs: effects of perphenazine on verbal behavior patterns [Gottschalk et al.], 632 (Je)

Psychoses: See also specific psychoses by name
disulfiram-induced psychosis: psychological meaning of disulfiram therapy for alcoholism [Bicknell & Moore], 661 (Je)
model psychosis produced by lysergic acid diethylamide: modification by prior administration of prednisone [Abramson & Sklarofsky], 89 (Ja)
specificity in psychotherapeutic approach to psychotic patient [Rosen], 350 (Mr)

Psychotherapy
adolescents: drugs or psychotherapeutic program for disturbed adolescent boys [August], 582 (My)
adolescents: impulsivity, and its therapeutic management [Weinreb & Counts], 548 (My)
approach, specificity in: to psychotic patient [Rosen], 350 (Mr)
cognitive restructuring: why research is therapy [Rashkis], 612 (Je)
communication of values and therapeutic change [Parloff et al.], 300 (Mr)
communication, shifting levels of: in treatment of adolescent character disorders [Engel], 94 (Ja)
group: leadership hunger in therapy group [Berne et al.], 75 (Ja)
group: overview of [Westman], 271 (Mr)
lysergic acid diethylamide as facilitating agent in [Chandler & Hartman], 286 (Mr)
measurement of outcome in: study in method [Storrow], 142 (F)
of paranoid patients [Bullard], 137 (F)

Psychotherapy—continued
patient as listener: new dimension in structure of [Geocaris], 81 (Ja)
patients' suitability for: determinants of clinical evaluations of different psychiatrists [Strupp & Williams], 434 (Ap)
placebo response in schizophrenic outpatients [Hankoff et al.], 33 (Ja)

R

Radioactivity
metabolism of *dl*-epinephrine-beta-C^{14} in plasma of schizophrenics [Berthiaume et al.], 468 (Ap)

Rating scales
measurement of outcome in psychotherapy: study in method [Storrow], 142 (F)

Recordings: See Tape recordings

Research
cognitive restructuring: why research is therapy [Rashkis], 612 (Je)
implications for: metatheoretical view of assumptions regarding etiology of schizophrenia [Handlon], 43 (Ja)

Reserpine
fetal damage due to ECT, insulin coma, chlorpromazine, or [Sobel], 606 (Je)

Residential centers: See Institutions

Residents and residences
prognostic conceptions of resident psychiatrist: the good prognosis [Friedman], 337 (Mr)
psychiatric resident and family of hospitalized patient [Hollender et al.], 125 (F)

Response
stimulus-response and individual-response specificity [Engel], 305 (Mr)

Retardation mental: See Mental deficiency

Rorschach test
SR-2: affect autonomy in schizophrenia [Beck], 408 (Ap)

S

Schizophrenia
bromide hallucinosis: relationship to [Levin], 429 (Ap)
ceruloplasmin reaction in [Aivazian & Griffith], 7 (Ja)
comparison of childhood, adolescent, and adult: etiologic significance of intellectual functioning [Pollack], 652 (Je)
drug therapy: relative effectiveness of chlorpromazine, promazine, phenobarbital, and placebo [Casey et al.], 210 (F)
effects of triiodothyronine in patients with [Meyer et al.], 528 (My)

Schizophrenia—continued
etiology: metatheoretical view of assumptions regarding: implications for research [Handlon], 43 (Ja)
metabolism of *dl*-epinephrine-beta-C^{14} in plasma of [Berthiaume et al.], 468 (Ap)
mothers', young, initial posthospital adjustment at home [Pao], 512 (My)
organization as unifying concept in: genetic, physiological, psychological, and sociocultural viewpoints [Singer], 61 (Ja)
peculiar odor of sweat of patients with: demonstration [Smith & Sines], 184 (F)
perception of hidden pictures by patients with [Weckowicz], 521 (My)
placebo response in outpatients [Hankoff et al.], 33 (Ja)
plasma factor: evidence in [Frohman et al.], 255 (Mr)
plasma factor: further evidence in [Frohman et al.], 263 (Mr)
predicting outcome of schizophrenic episode [Walker & Kelley], 492 (My)
serum: influence on behavior of spider Zilla-x-notata [Bercel], 189 (F)
sleep deprivation, experimental, in patients with [Koranyi & Lehmann], 534 (My)
SR-2: affect autonomy in [Beck], 408 (Ap)
theory of: minimal requirements for [Bateson], 477 (My)
thought disorder in: Chapman's tests of distractibility and associative intrusion in [Feinberg & Mercer], 504 (My)
urinary aromatic excretion patterns in [Goldenberg et al.], 221 (F)
urine, indoles, differential extraction: schizophrenic and normal subjects [Sprince et al.], 268 (Mr)

Science
statistics, psychiatry, and [Thorpe & Baker, Sept. 1959]: comment [Levitt], 457 (Ap)

Sensation
sensory deprivation: catechol amine excretion and behavior during [Mendelson et al.], 147 (F)
sensory deprivation: imagery sequence in [Vosburg et al.], 356 (Mr)
